Are you available to field the first question today 12:30-1:15? I think our response is something along the lines:

Ex. 5 Deliberative Process (DP)

Thanks, Jeff. Thuy and I will be there for the session today to cover lab related questions.

I've added RD senior mgmt to the thread so they are in the loop. I've also attached the list of Qs that came from SFIREG and Kimberly's first cut at thoughts on how/who to respond.

Subject: RE: PFAS questions at SFIREG JWC

Hi all,

I just looked at the questions and there are many focused on the BEAD lab efforts so am assuming Neil will respond to those? Also, you may want to see if Kerry Leifer is available because he has done some work on the definition issue as it relates to the AIs and inerts. He can speak to the extent of the issue based on that analysis more definitively than I can.

Hope this helps.

It will be interesting!

Jeff

Subject: PFAS questions at SFIREG JWC
Importance: High

Hi all,

As discussed at the agenda walk-through, SFIREG has shared additional questions (attached) for EPA input during the **PFAS** session (9/20, 12:30-1:15pm) at their upcoming meeting. Please let me know if there is any additional information you need from the group and I'm happy to follow up.

SFIREG plans to send out an updated agenda later this week and would like to add the names of EPA participants to each session – should I include the names of the folks on this email or will others be covering?

Thank you,
Emily
